STAPLES
Business Advantage®

Whole office hydration.

Water in the workplace. It's a must. That's why we make it easy to get what you need. Just lease an under-the-counter, freestanding or countertop unit — we'll do the rest. And you can enjoy all the benefits including:

- Integration with plumbed-in brewers means cleaner water for better-tasting coffee
- Accu-temp water monitoring and hot water safety features
- Cutting down on single-serving water bottles means less plastic and less waste

Full-height water filtration unit

White countertop water filtration unit

Black countertop water filtration unit

Water filtration for the workplace

Small-space solution. Ideal for locations where space and storage are limited.

Choice of dispensers. Full-height and countertop models, available in black or white.

Two water filtration choices. Carbon filtration reduces chlorine taste and odors, and reverse-osmosis filtration reduces an “earthy” taste and mineral deposits.

Good for the planet. The filters and components are 100% recyclable with the exception of the cartridge manifold.

Service included. Filtration Specialists will check your system every six months and change filters.

Contact your Account Representative for more information on a complete coffee and water program.

Water dispenser with 5-gallon returnable bottle

Get water in 5-gallon returnable bottles.

Drinking water is an essential part of your breakroom offering. Staples Business Advantage makes it easy with a custom water program featuring convenient 5-gallon returnable bottles from DS Services of America, Inc.

- Variety of waters. Spring and purified water is available in most locations.
- Cold or hot. Handy dispensers that offer both.
- Reusable/Refillable bottles. Polycarbonate bottles are cleaned, sanitized and refilled 40–50 times.
- Local and fresh. Drinking water is purified by local regional bottling plants.

Our national network supports multi-location businesses for consistency across locations. And, consolidating vendors means less work for you.

Local sourcing.

Bottled drinking water comes fresh from the nearest DS Services facility. See what brand of bottled water is available in your area.

Contact your Account Representative for more information on a complete coffee and water program.
