

**STAPLES®****Facility
Solutions**

Sustainable solutions you can count on.

You shouldn't have to sacrifice performance, environmental impact or your budget when choosing chemicals. That's why we created Sustainable Earth by Staples® — an exclusive line of products sure to make your facility shine. Developed by our team of in-house scientists, Sustainable Earth by Staples® is a line of sustainable products that help make your job easier.

Our experienced team of Facility Specialists will work with you to develop a sustainable facilities program that's conscious of the planet and your bottom line. See for yourself by scheduling a customized demonstration of how Sustainable Earth® products can make cleaning easy for your facility.

Our demonstration includes:

- An analysis of your facility and product recommendations
- Tests on carpet, hard floors, restrooms or other surfaces
- Helpful tips on tools and procedures to help solve your cleaning challenges

To learn more or schedule a product demonstration, contact your Facility Specialist today.

**Sustainable Earth**

By Staples®

MAKE more HAPPEN

The Sustainable Earth® difference.

Packed with power.

Whether it's a quick touch-up or a heavy-duty cleanup, Sustainable Earth® chemicals have the power, reliability and ease to get the job done, every time.

- We have a full lab committed to achieving the highest cleaning performance
- All of our chemicals are tested in various types of environments, so we know they'll perform exceptionally wherever you need them to
- During production, we conduct random quality checks so every bottle measures up to our high expectations
- Our line includes four core cleaning solutions (numbers 61, 62, 64 and 70) that are powerful enough to clean almost every surface in your facility

Cost-efficient.

It's an easy way to pay less and get so much more. Engineered to clean your entire facility, our four core products will help you make the most of your budget.

- With high dilution ratios, Sustainable Earth® products cost just pennies per diluted quart
- User-friendly product labels can help reduce employee training time and costly errors
- Our easy-to-use dispensing systems provide easy setup and mixing with foolproof measuring for less wasted product
- With Staples Business Advantage®, you'll receive consolidated invoicing and billing, making it easy to track costs

Sustainable Earth® chemicals have higher dilution ratios than conventional cleaners, so they'll last much longer.

Safer for the planet and your employees.

Many of our products are recognized by leading third-party certification programs, listed on the chart to the right.

- Our cleaners are eco-preferable to conventional cleaning products because of their reduced environmental toxicity.

Safer for people and the planet. These products contain ingredients with more positive health and environmental characteristics than conventional cleaners. epa.gov/saferchoice.

Green Seal™ meets the Green Seal standard for industrial and institutional cleaners based on its reduced human and environmental toxicity, including reduced volatile organic compound (VOC) content, as compared to conventional cleaners. Green Seal is an independent, nonprofit, third-party certifier to which Staples pays evaluation and compliance monitoring fees.

Dilution control systems.

To accompany our Sustainable Earth® line of cleaning chemicals, we also developed our own easy-to-use dilution control systems: the Quick Mix® and the Handy Mix®. Both provide safe and accurate dilution every time, maximizing cleaning and cost effectiveness.

Quick Mix® Wall-Mount Dispenser

Modular design for maximum flexibility.

Key features:

- Secure lock and key
- Bucket and bottle fill options
- Convenient storage for bucket fill hose
- No contact with chemicals is necessary

Quick Mix Dilution Control System 4x4 (shown with two cabinets): Staples No. 517602

Quick Mix Dilution Control System 2x2 (not shown): Staples No. 356649

Quick Mix Locking Cabinet — holds two F-style gallon bottles (shown): Staples No. 356648

Product Name		Staples No.
SE61	Glass Cleaner Concentrate	815026
SE62	High-Performance Carpet Cleaner	845660
SE63	Concentrated Odor Eliminator	823005
SE64	Neutral Multi-Use Cleaner	814946
SE65	Heavy-Duty General-Purpose Cleaner	816212
SE70	Washroom Cleaner	814993

Quick Mix Portable Dispenser

Convenient portable dispensers are easy to install and use.

Key features:

- Dilutes Sustainable Earth by Staples® and Brighton Professional™ gallon-size chemicals accurately and safely every time
- Optimal solution for budget-conscious customers with limited space
- Chemicals not included

Product Name		Staples No.
BPR-25154	Dispenser, 1:256 Dilution	071749
BPR-25153	Dispenser, 1:128 Dilution	071751
BPR-25152	Quick Connect Kit	071748

Handy Mix Wall Dispenser

Best for smaller facilities to store in a limited space.

Key features:

- Bucket and bottle fill options
- Wall-mount push bar locks into place for easy bucket filling
- Handheld dispenser has a convenient bucket hanger
- Handheld trigger allows for maximum control of chemical
- No contact with chemicals is necessary

Handy Mix Wall Mount (shown): Staples No. 815075
